

Losing Ground

PJ Harvey

Losing ground
Under my feet
There's a rumbling
There's a crack in the street
It's just no good
It's just no good anymore
Everything I do
Has been done before

Yeah I found my voice
Yeah I got nothing to say
The whole thing started
'Cause my mind has gone away
I used to get high
Now I just get lost
I used to bark at the moon
The first one I came across

Almost here, almost gone
Almost here, almost gone
Almost where, we belong

Better watch where you step
Better watch what you say
Speak the truth here, baby
Believe in what you say (2x)
It's just no good anymore (2x)

You bet I got trouble baby (4x)
