

# Losing Ground

PJ Harvey

Losing ground  
Under my feet  
There's a rumbling  
There's a crack in the street  
It's just no good  
It's just no good anymore  
Everything I do  
Has been done before

Yeah I found my voice  
Yeah I got nothing to say  
The whole thing started  
'Cause my mind has gone away  
I used to get high  
Now I just get lost  
I used to bark at the moon  
The first one I came across

Almost here, almost gone  
Almost here, almost gone  
Almost where, we belong

Better watch where you step  
Better watch what you say  
Speak the truth here, baby  
Believe in what you say (2x)  
It's just no good anymore (2x)

You bet I got trouble baby (4x)
