Losing ground
Under my feet
There's a rumbling
There's a crack in the street
It's just no good
It's just no good anymore
Everything I do
Has been done before

Yeah I found my voice
Yeah I got nothing to say
The whole thing started
'Cause my mind has gone away
I used to get high
Now I just get lost
I used to bark at the moon
The first one I came across

Almost here, almost gone Almost here, almost gone Almost where, we belong

Better watch where you step Better watch what you say Speak the truth here, baby Believe in what you say (2x) It's just no good anymore (2x)

You bet I got trouble baby (4x)
