```
Stella marie oh my star
stella marie oh my star
stand on ground look up at her
just hanging in gold stone
just hanging there face froze
but I think I see her smiling
go
go
go
go go
stella marie you're my star
in your blue blue time well you light my lantern
o stella's large (for the life of me I can't quite make this out)
pink almond face
it's glowing in space
a place for heroes only
place for heroes only
place for heroes only
place for heroes only
go
qo
go
go go go go
stella marie you're my star
I pin you to my chest
sell you to the rest
I kiss her gown
send those angels down to woo me now
I think I see her smiling
go
go
go
go go
go
go
go
go go
go
go
go
go go
```
