

## A Scene In Replay

Place Vendome

The road lies ahead  
And it's then, I see  
All these years has been hard to me  
Remembering you, how it used to be

I followed my dreams and as time passed by  
The choices I made did seem right at the time  
Deep in my mind a scene in replay  
And all I could say is goodbye

I ran away, didn't look back  
Opened my heart to find there's no other way  
My heart is not around anymore  
But in my mind I remember when you walked out the door

On the road is where I choose to be  
Never needed love, just too blind to see  
But the past caught up with me  
Oh, I'm falling into misery

I followed my dreams and as time passed by  
The choices I made did seem right at the time  
Deep in my mind a scene in replay  
And all I could say is goodbye

I ran away, didn't look back  
Opened my heart to find there's no other way  
My heart is not around anymore  
But in my mind I remember when you walked out the door (2x)

[Solo]

I followed my dreams and as time passed by  
The choices I made did seem right at the time  
Deep in my mind a scene in replay  
And all I could say is goodbye

I ran away, didn't look back  
Opened my heart to find there's no other way  
My heart is not around anymore  
But in my mind I remember when you walked out the door (2x)
