

Dancer

Place Vendome

Hey, are you searching desires?
A little love
Hidden dreams
Secret romance
He's the well in the steaming desert
Here's the magic child

Take a look, step in through the doorway
I walked in like a fly to the light of flame
Not alone but I didn't see them
Come the magic child

Dancing in her veils like I've never felt before
I was hypnotized (hypnotized)
And like a slave before a goddess bound to beg for more
I was mesmerized

Drifter, stand closer to my fire
More than your dreams you'll never be the same no more
I'm the dancer fall slave to my desire
Give me all you have and lose it all

Then, I was left with hunger
Of the dangerous love
Killer romance
Only lived just to feel her dancing
Right through my heart

Dancing in her veils like I've never felt before
I was hypnotized (hypnotized)
And like a slave before a goddess bound to beg for more
I was mesmerized

Drifter, stand closer to my fire
More than your dreams you'll never be the same no more
I'm the dancer fall slave to my desire
Give me all you have and lose it all
