

Hold Your Love

Place Vendome

I'm on knees to pray to survive
I found the letter you left before to go
I got no words to say, I'm the dark
I'd take you to our magic place
To hear you talk to me

Hear me calling, hear me call your name
I was here for you, why didn't you stay?
Hear me crying, crying my despair
I'm here for you
Why don't you come back to me?

Hold your love
Hold your love again
Don't hide your heart from me
Don't run away
Bring your smile,
Bring your smile to me
Set out love free,
Free from the spell we cast
Hold your love

I have no place to go, to find some peace
I'm in my darkened room, I'm a miserable man
I have no air to breathe, where's my light?
I fell so blue, there's nothing I can do

I need your love
I need you close to me
Where have you gone?
I fell like dying
If you don't hold your love for me
