

I Will Be Waiting

Place Vendome

Yes, I can be such a humble man
Can I make you understand
You're a part of me that I must set free when the moment comes

So what's the use of playing give and take
When neither one of us can win?
It's going on too long and I'm not that strong as I used to be

And every time that I leave you alone
There's a chance you will be gone
Ooh, I feel so cold when I walk through that door
When you say what I've always known

I will be waiting, every single day
I can't believe I heard you say
I will be waiting, every single day to be in your arms
I will be waiting, waiting by the phone
How could I leave you on your own?
I will be waiting, every single day and into the night

Although you laugh I swore I heard a cry
And though it's hidden by your smile
I was wrong before and I'm not quite sure what you really mean

So many ways to be hurting inside
And the pain keeps us awake
Oh, I want to know if it's all in my mind
Did I make the same mistake?

I will be waiting, every single day
I can't believe I heard you say
I will be waiting, every single day to be in your arms
I will be waiting, waiting by the phone
How could I leave you on your own?
I will be waiting, every single day...

And into the night.... This restless night
Ooh, do you forgive me?
I don't need to hear you cry,
You don't need my alibi

And every time that I leave you alone
There's a chance you will be gone
Ooh, I feel so cold when I walk through that door
When you say what I've always known

I will be waiting, every single day
I can't believe I heard you say
I will be waiting, every single day to be in your arms
I will be waiting, waiting by the phone
How could I leave you on your own?
I will be waiting, every single day and into the night

I want to be good to you
(Oooo, Every time when the words all falling from my pen)
I know that it's just not true
(Oooo, Every time that you fake it)

Can I be what you want me to be?
(Oooo, Every heart is a home for any boy or girl)
I swore I heard you cry, oh, left on your own
(Oooo, anybody can make it)
