

It Can't Rain Forever

Place Vendome

I've been standing under stormy clouds since you walked away
You deleted the sun that's why my world is go grey
I am crying over what we've lost, want it back again
But together as one
I know my heart never mends

But after all, I'm standing tall

'Cause it can't rain forever
I'm sure there's a light beyond my tears
'Cause it can't rain forever
I have to let go of a thousand fears
It can't rain forever

I have been hurt but not like this before
Laying on the floor
How could this magic be wrong
I thought our love was so strong

But after all, I never fall

'Cause it can't rain forever
I'm sure there's a light beyond my tears
'Cause it can't rain forever
I have to let go of a thousand fears
'Cause it can't rain forever
I'm sure there's a light beyond my tears
'Cause it can't rain forever
I have to let go of a thousand fears
It can't rain forever

The circle is broken
I'm on my own
But I am stranger
Yes, I'm the king on my throne

'Cause it can't rain forever
I'm sure there's a light beyond my tears
'Cause it can't rain forever
I have to let go of a thousand fears
It can't rain forever
