

# Power Of Music

Place Vendome

I sacrificed so many days of my life  
I've been alone in this paradise  
I never wondered why I wasn't reaching my goal  
But then I found the way to hear my inner call

No, I'm not alone

It's calling me  
It's calling you  
I raise my voice up to the sky  
I'll never let my memories fade away  
It's touching you  
It's touching me  
I've got the power of music in me  
I'll never let somebody take it away  
The power of music

I smile to the world now that I hold my shining light  
I'm not alone anymore in this Eden of life  
I never asked nobody to lift me from my hell  
But then I sang my prayer to reach my inner voice

No, I'm not alone

It's calling me  
It's calling you  
I raise my voice up to the sky  
I'll never let my memories fade away  
It's touching you  
It's touching me  
I've got the power of music in me  
I'll never let somebody take it away

[Solo]

It's calling me  
It's calling you

It's calling me  
It's calling you  
I raise my voice up to the sky  
I'll never let my memories fade away  
It's touching you  
It's touching me  
I've got the power of music in me  
I'll never let somebody take it away

The power of music
