

# Surrender Your Soul

Place Vendome

I saw your face again last night  
But in a different state of mind  
With open eyes I saw you would leave me once again  
You are the new talk of the town  
People stare when you walk by  
So am I nothing but a stranger in your eyes?

I was crying, lying, dying to get over you  
I'm grieving, you're feeling?  
My love for you is true

Surrender your soul  
Come walk the streets of dreams  
I'll take you to a higher place  
I'll show you where the stars are closing in  
Surrender your soul  
Come walk the streets of dreams  
I'll take you to a higher place  
But now the time is right to say goodbye

I've seen the magic in your eyes  
You've sent me straight to paradise  
But when I wake up from the dream  
Your face is still there

I was crying, lying, dying to get over you  
I'm grieving, you're feeling?  
My love for you is true

Surrender your soul  
Come walk the streets of dreams  
I'll take you to a higher place  
I'll show you where the stars are closing in  
Surrender your soul  
Come walk the streets of dreams  
I'll take you to a higher place  
But now the time is right to say goodbye

Surrender your soul  
Come walk the streets of dreams  
I'll take you to a higher place  
I'll show you where the stars are closing in  
Surrender your soul  
Come walk the streets of dreams  
I'll take you to a higher place  
But now the time is right to say goodbye

Surrender your soul  
Come walk the streets of dreams  
I'll take you to a higher place  
I'll show you where the stars are closing in  
Surrender your soul  
Come walk the streets of dreams  
I'll take you to a higher place  
But now the time is right to say goodbye
