

Talk To Me

Place Vendome

I've been here all this time standing in the rain
In my soul and in my eyes no reason to break this chain
Who am I to teach you how not to live your life in pain
Who am I to tell you why your smile could be a reason to live

I just wanna take you higher
Higher than the sky

Talk to me
Let your sadness go
I'm calling you
I won't leave you alone
Talk to me
Don't let your hatred burn you
I'm here for you
Won't let you run away

Oh, no, I can't deny, I don't wanna hesitate
But I want you to feel alive, with lots of reasons to celebrate
Who am I to teach you how not to live your life in tears
Who am I to tell you why your eyes could be my reason to live

I just wanna take you higher
Higher than the sky

Talk to me
Let your sadness go
I'm calling you
I won't leave you alone
Talk to me
Don't let your hatred burn you
I'm here for you
Won't let you run away

I just wanna take you higher
Higher than the sky

Talk to me
Let your sadness go
I'm calling you
I won't leave you alone
Talk to me
Don't let your hatred burn you
I'm here for you
Won't let you run away
