

## Autoluminescent

Placebo

I am blinding  
Autoluminescent  
I am white heat  
I am heaven sent  
I was a nightmare  
But I'm not gonna go there  
Again

Into the black hole  
The house of no content  
Make mine a meteor  
Rise me above the rest  
I'm soaring through outer space  
There is no better place  
To be

I'm bigger than Jesus Christ  
I'm greater than God in light  
I am dangerous  
I cut like the sharpest knife  
I'm going over  
And I hope I can hold her  
In

Into the darkness  
I gave away myself  
Slipped on the spiral stairs  
Tumbling down the well  
I fell on a soft spot  
I'm white heat, I'm white hot  
Again  
Again  
Again  
Again
