

## Devil in the Details

Placebo

I've been wasting all my time  
With the devil in the details  
I got no energy to fight  
He is a fucking pantomime  
That devil in the details  
And he is fixing up to take a bite  
I don't see the point in try  
I've got the devil in the details  
He's gonna teach me wrong from right  
That fucking pantomime the devil in the details  
I'm gonna dance with him tonight

All of my wrongs, and all my wicked ways  
Will come back to haunt me, come what may  
He wrote all the songs I hope to write someday  
Looks like the devil is here to stay

Let me take you for a ride with the  
Devil in the details  
We'll kiss and tremble with the delight  
Everything is fine with the devil in the details  
We're gonna dance with Him tonight

All of my wrongs, and all my wicked ways  
Will come back to haunt me, come what may  
For all of the songs I hope to write someday  
Looks like the devil is here to stay  
Looks like the devil is here to stay  
Looks like the devil is here to stay

All of my wrongs, and all my wicked ways  
Will come back to haunt me, come what may  
For all of the songs I hope to write someday  
Looks like the devil is here to stay  
Looks like the devil is here to stay  
Looks like the devil is here to stay

I've been wasting all my time  
With the devil and the details
