Exit Wounds

Placebo

In the arms of another
Who doesn't mean anything to you
There's nothing much to discover

Does he shake, does he shiver
As he sidles up to you
Like I did in my time?

As you wake
Does he smother you in kisses
Long and true?
Does he even think to bother?

And at night, under-covered
As he sliding into you
Does it set your sweat on fire?

Want you so bad I can taste it
But you're nowhere to be found
Now take a drug to replace it
Or put me in the ground

In the arms of another
Who doesn't mean anything to you
Do you lose yourself in wonder?
If I could I would hover
While he's makin' love to you,
Making rain as I cry

Want you so bad I can taste it
But you're nowhere to be found
Now take a drug to replace it
Or put me in the ground (2x)

Put me in the ground (4x)
