

Happy You're Gone

Placebo

1. Breathe me
Everytime you close your eyes
Taste me
Every time you cry
This memory will fade away and die
Just for today
Breathe me and say goodbye

R: How many times?
How many times?
Now I can't look you in the eye
Now I can't look you in the eye
How many times?
How many times?
Now I can't look you in the eye

2. See me
In the eyes of another's child
Turn away
When you see me walkin' by once in a while
This melody will fade away and die
Just for today
Breathe me and say goodbye

R: How many times?...

*: And I don't even want to try
My, my, my, my
'Cause every word from you is a lie
My, my, my, my, my, my

R: How many times?
How many times?
Now I can't look you in the eye
Now I can't look you in the eye
How many times?
How many times?
Now I can't look you in the eye
