Placebo

It's horrid to see you again,
Now that you're back from the dead.
It's horrid to see you again,
So bored of being you.

It's horrid to see you again,
Now that you're back from the dead.
It's horrid to see you again
So bored of being...
Alive, alive, alive.

It's horrid to see you again,
Acting like you're on some kind of cross.
It's horrid to see you again,
An emotional retard.

It's horrid to see you again,
Unaware that all may not be lost.
It's horrid to see you again,
So bored of being...
Alive, alive, alive,
Alive, alive, alive, alive.

It's horrid to see you again,
Walking around with that egg on your face.
It's horrid to see you again,
So full of apathy.
It's horrid to see you again
Caught in a trap you cannot escape.

It's horrid to see you again,
So bored of being...
Alive, alive, alive,
Alive, alive, alive, alive.
