It's in your reach Concentrate It's in your reach Concentrate If you deny this Then it's your fault That God's in crisis He's over

It's in your reach Concentrate It's in your reach Concentrate If you deny this Then it's your fault That God's in Crisis He's over

Every time I rise I see you falling Can you find me space inside your bleeding heart Every time I rise I see you falling Can you find me space, find me space

It's in your reach Concentrate It's in your reach Concentrate If you deny this Then it's your fault That God's in Crisis He's over

Every time I rise I see you falling
Can you find me space inside your bleeding heart
Every time I rise I see you falling
Can you find me space inside your bleeding heart
It falls apart
It falls apart
Falls apart

Every time I rise I see you falling
Can you find me space inside your bleeding heart
Every time I rise I see you falling
Can you find me space inside your bleeding heart
It falls apart
It falls apart
Falls apart
