

# Comin' With the Quickness

Plain White T's

Coming with the quickness  
As you hid below the bows  
But I don't even feel it anymore  
Guess I have a new sound  
Can't you see it's cold now  
Everywhere we go now

I just wanna go home now  
Just let me go home now  
I wanna go home now  
Just let me go home now  
I wanna go home now  
Just let me go home

I don't even care for you  
You don't seem to care for me  
So why do we go on like this?  
Can't you see it's killing me  
Every time we talk now  
We're only lying to ourselves

I just wanna go home now  
Just let me go home now  
I wanna go home now  
Just let me go home now  
I wanna go home now  
Just let me go home

Coming with the quickness  
As you hid below the bows  
But I don't even feel it anymore  
Guess I have a new sound  
Can't you see it's cold now  
Everywhere we go now

I just wanna go home now  
Just let me go home now  
I wanna go home now  
Just let me go home now  
I wanna go home now  
Just let me go home now  
I wanna go home now  
Just let me go home now  
I wanna see my friends now  
Just let me be alone now  
I just wanna be alive now  
Just let me live my life now  
Just let me go home now  
Just let me go home now  
I wanna go home
