

# Map of the World

Plain White T's

Ooohhh  
Ooohhh  
Ooohhh  
Ooohhh

The stars at night burn so bright  
but where do I fit in  
Am I too small to matter at all  
Oh, where do I fit in

Am I a dot on the map of the world  
Just a spot on the map of the world  
When I imagine the whole universe  
Oh, where do I fit in

The wind comes through singing the blues  
but where do I fit in  
The autumn trees dance with the breeze  
but where do I fit in

Am I a dot on the map of the world  
Just a spot on the map of the world  
When I imagine the whole universe  
Oh, where do I fit in

Wish I made it, wish I might  
find some answers here tonight  
Tell me, is there something out there

Is there more than I can see  
I don't know what I believe  
Tell me, is there something out there  
anything out there

Am I a dot on the map of the world  
Just a spot on the map of the world  
When I imagine the whole universe  
Oh, where do I fit in

Am I a dot on the map of the world  
Just a spot on the map of the world  
When I imagine the whole universe  
Where do we all fit in

Ooohhh  
Ooohhh  
Ooohhh  
Ooohhh
