

I wanna live I wanna die  
Wanna find a place where I can hide  
Wanna think about the world  
And how I got to this girl  
Wanna laugh I wanna cry  
Wanna look right into your eyes  
Wanna see everything there is to see in this world

We got a lot to say  
We got a lot of time  
To say everything that's on our minds

Wanna swim I wanna fly  
Wanna be a cloud up in the sky  
Wanna watch the sun go down  
Wanna know you're always around  
Wanna know everything that anyone would ever wanna know  
Wanna watch television listen to the radio

We got a lot to say  
We got a lot of time  
Say everything that's on our minds

Wanna see everything there is to see in this world  
I wanna walk around and talk to all the pretty girls  
I don't see anything that anyone wants me to see  
I just be

We got a lot to say  
We got a lot of time  
To say everything that's on our minds

We got a lot to say  
All we've got is time  
Say everything that's on our minds
