

# Achilles Heel

## Plan Three

Wheels spin, faster  
Servant, master  
Naked, in your, eyes  
You reach out, defenseless  
My strongest, weakness  
Blindsided, by your smile  
My only vice

I thought I'd done my time, but no matter how I try,  
In a flash, you got me open wide.  
I don't know what is fiction, what is real.  
If I just could flip a switch, and not feel.  
You're my Achilles heel.

You blow, hot and cold  
So much, untold  
You're a blessing and a, ... curse.  
Now I walk my own way.  
Thought I could handle it, thought I could just play.  
I'm losing this war of, ... nerves.

There's no lesson learned, cause no matter how I try,  
In a flash you got me open wide.  
I don't know what is fiction, what is real.  
If I just could flip a switch, and not feel.  
You're my Achilles heel.

There's no lesson learned, cause no matter how I try,  
In a flash you got me open wide.  
I don't know what is fiction, what is real.  
If I just could flip a switch, and not feel.  
You're my Achilles heel.
