

# Battle Song

## Plan Three

Don't need to believe  
You know how it's supposed to be  
I know that it's never easy  
So wave your white flag at me

Yeah

You're waiting for a lifetime  
And when you feel the time's right, choose  
You wasted all your lifelines  
Form it out and speak the truth  
So we sing:

We're the ones that will march like the thunder  
We're waiting for you  
We're the few that the world will remember  
And we'll get through so let the thunder roar  
Yeah let the thunder roar

We don't understand  
The frailty in what we have  
So no one said that it was easy  
Why would there be a bigger plan (Plan)

Yeah

You're standing at the start line  
And when you see that green light, move  
You wasted all your lifelines  
Form it out and speak the truth  
So we sing:

We're the ones that will march like the thunder  
We're waiting for you  
We're the few that the world will remember  
And we'll get through so let the thunder roar  
Yeah let the thunder roar  
So let the thunder roar (Roar, roar, roar, roar)

If we were to do it again  
Would we be exactly the same  
Would we hear the call  
If we were to do it again (If we were to do it again)  
Would they be exactly the same  
Would they hear this call

March like thunder, the treaty is over

We're the ones that will march like the thunder  
We're waiting  
We're the few that the world will remember  
And we'll get through so let the thunder roar

Yeah let the thunder roar  
Yeah let the thunder roar  
Yeah let the thunder roar
