

Chasing Tornadoes

Plan Three

Out of black, into blue
Feel the rain as we move into
Blackened skies, what we roam
Bending trees and lifting stones

I am chasing you, I am chasing you away
I am chasing you

I need to be closer, I need to run, I need to run
You need to be faster or I will catch you
You need to run, we need to run

Take a bow, take the leap
We collide in perfect harmony
Havoc rise as we near
Soon no sounds we will hear

'Cause I am chasing you, I am chasing you away
I am chasing you

I need to be closer, I need to run, I need to run
You need to be faster or I will catch you
You need to run, we need to run

I need to be closer, I need to run, I need to run
You need to be faster or I will catch you
You need to run, we need to run

It's always in me, it's always in me
'Cause I am here and it's always in me
It's always in me, we need to run
