

## Subrosa

### Plan Three

Sometimes it feels like  
I should surrender it all  
These empty painless spirits  
Been trying so hard  
To bring this down on me

You were always out there  
You were all the constellations  
Shooting everlasting flares  
In this company of strangers  
There's no need to feel alone  
Do I need to take this further?  
Do I need to carry on?

If I was leavin'  
Would you be there beside me?  
(I need you, don't let go)  
If I was leavin'  
Would you be there beside me?

Now come and take this nothing from me  
It's alright  
I found my place where wrong is right  
When I'm gone  
You can't bring this down on me

Do you see me out there?  
You choose to send the destination  
Always certain and aware  
In this company of strangers  
There's no need to feel alone  
Do I need to take this further?  
Do I need to carry on?

If I was leavin'  
Would you be there beside me?  
(I need you, don't let go)  
If I was leavin'  
Would you be there beside me?

Let's forget this for a while  
Go ten thousand million miles  
Put your reasoning aside  
And tell me what you'd do

If I was leavin'  
Would you be there beside me?  
(I need you, don't let go)  
If I was leavin'  
Would you be there to guide me?  
(I need you, don't let go)  
If I was leavin'  
Would you be there beside me?  
There beside me  
There beside me  
There beside me
