Come Alive

Planet Funk

Yeah, Come on inside the sound
I'm steppin outside myself
Croaking on the underground
But ever high

There you go passin me by
Like someone dropped you from the clouds
Spinnin round and round

Was it gonna fly?
You'll never know

Come alive she said don't go
Don't leave before you know
Don't get it wrong just when you could've got it right

Come alive she said don't go
It could be such a beautiful world
Don't get it wrong just when you could've got it right

When you could've got it right

Yeah, steppin outside the sound
I'm fallin inside myself
Chokin on the underground
Forever high

Always within reach
But runnin too fast to care
Fakin it just for now
