

Inside All The People

Planet Funk

Inside all the people
A jet-black spark
Rippling like magma
In their hearts
Under all the hot lights
And gyroscopes
Physically pulsing
As they shake their bones

Ha-ha, yeah
Feeling kinda lonely
With a vodka and coke
Feeling kinda lonely
Underneath the strobe
I was
Feeling kinda lonely
Boys are shaking
Girls are rotating
Make my real life melt into the floor
Boys are shaking
Girls are rotating
Make my real life melt into the floor

Inside all the people
An onyx flame
Flickering and rising
Into their brains
Smothered in a blue light
Covered in a noise
Oscilating girls
Oscilating boys

Ha-ha, yeah
Feeling kinda lonely
With a vodka and coke
Feeling kinda lonely
Underneath the strobe
I was
Feeling kinda lonely
Boys are shaking
Girls are rotating
Make my real life melt into the floor
Boys are shaking
Girls are rotating
Make my real life melt into the floor

Make my real life melt into the floor
Boys are
Shaking
Girls are
Rotating
Make my real life melt into the floor
Boys are
Shaking
Girls are
Rotating
Make my real life melt into the floor
