

# Inside All The People

Planet Funk

Inside all the people  
A jet-black spark  
Rippling like magma  
In their hearts  
Under all the hot lights  
And gyroscopes  
Physically pulsing  
As they shake their bones

Ha-ha, yeah  
Feeling kinda lonely  
With a vodka and coke  
Feeling kinda lonely  
Underneath the strobe  
I was  
Feeling kinda lonely  
Boys are shaking  
Girls are rotating  
Make my real life melt into the floor  
Boys are shaking  
Girls are rotating  
Make my real life melt into the floor

Inside all the people  
An onyx flame  
Flickering and rising  
Into their brains  
Smothered in a blue light  
Covered in a noise  
Oscilating girls  
Oscilating boys

Ha-ha, yeah  
Feeling kinda lonely  
With a vodka and coke  
Feeling kinda lonely  
Underneath the strobe  
I was  
Feeling kinda lonely  
Boys are shaking  
Girls are rotating  
Make my real life melt into the floor  
Boys are shaking  
Girls are rotating  
Make my real life melt into the floor

Make my real life melt into the floor  
Boys are  
Shaking  
Girls are  
Rotating  
Make my real life melt into the floor  
Boys are  
Shaking  
Girls are  
Rotating  
Make my real life melt into the floor
