

Adam And Eve

Planet P Project

Lookin' for a way out, lookin' for a hole
Waitin' for the right time, we're gonna roll
I got my eye on a company ship
One of these nights we'll take a little trip

Two of us, that is just enough
To make a virgin planet to paradise
Adam and Eve, and our garden of Eden's
On the other side of the skies
Of the skies
If you work for the man, you need a little pull
Yes sir, no sir, three bags full

Gonna grab my chance, gonna make my break
Give, give, I'm gonna try a little take
Under the eyes that never rest
Bird's gonna fly, gonna leave the nest
