

Armageddon

Planet P Project

There's an edge to the wind
Cutting into my skin
And the air's like an icicle
As the night starts to fall
And there's no one around
(No one around)
My ears strain for a sound
(Sound)
As I search through these canyons
So cold and so tall
Armageddon, oh no
(Oh no)
Armageddon
It came too soon
In this city so proud
Full of noises and crowds
This once was a monument
Now, it's a grave
And they warned us about
(They warned us about)
When reason gave out
(Reason gave out)
Now, it's too late for miracles
There's nothing to save
Armageddon
(Armageddon)
Armageddon
(Armageddon)
It came too soon
Armageddon
(Armageddon)
Oh no
Armageddon
(Armageddon)
It came too soon
Armageddon
(Armageddon, Armageddon)
Armageddon
(Armageddon, Armageddon)
It came too soon
Armageddon
(Armageddon, Armageddon)
Oh no
Armageddon
(Armageddon, Armageddon)
It came too soon
Armageddon, Armageddon
Armageddon, Armageddon
