Behind The Barrier

Planet P Project

In the closing minutes of pre-zone time With the world hanging over the edge As the messages flew down the red hot lines We did the body count in our heads

And the true believers looked on and laughed As the landscape cracked and bled Behind the barrier Well I still don't know how he did it

And I wonder how high it goes
I only know that life goes on
For the lucky ones here in the zone
And the true believers looked on and laughed

Till the last cruise missile had flown
Behind the barrier
And the minutemen stood as we knew they would
And the world went temporarily sane

And the radio said
"My god cover your heads
And get out of the boiling rain"
Get behind the barrier

Ya ya ya ya ya ya Behind the barrier And the minutemen stood as we knew they would And the world went temporarily sane

And the radio said
"My god cover your heads
And get out of the boiling rain"
And the true believers looked on and laughed

Till the last cruise missile had flown And life goes on for the lucky ones Out here in the zone Behind the barrier

Ya ya ya ya ya ya Behind the barrier
