

Hey, electricity  
Don't pull the plug, shut down on me  
I'm bringin' the new technology  
And it's crazy  
Everywhere machinery  
Tools keep me company  
I talk to the scenery  
It talks back to me  
Power tools to make life easy  
Power tools to make life fun  
Where I'm goin' I'm like a king  
They're watchin' the skies wonderin' what I'll bring  
I got 'em all believin' they need these things  
And it's crazy  
Power tools to make life easy  
Power tools to make life fun  
Where I'm goin' I'm like a king  
They're watchin' the skies wonderin' what I'll bring  
I got 'em all believin' they need these things  
And it's crazy  
They think it's magic don't want to know  
What makes it work, what makes it go  
I give 'em Gomer Pyle on the video  
They go crazy  
Power tools make life easy  
Power tools make life fun  
I'm never gonna shut it down  
They're never gonna shut me down  
No, no, I'm bringin' power tools  
To make life easy  
Power tools to make life fun
