

# The Judge And The Jury

## Planet P Project

This land is your land, this land is my land,  
From California to the New York Islands  
From the Redwood Forest, to the Gulf Stream waters  
This land belongs to you and me...

All right  
Yeah

They are the judge and the jury  
Yeah the ones who will decide  
Who gets burned out in a hurry  
Who can stay and must fly  
You will find them out in Michigan  
Find them in Berlin  
You will find them everywhere  
There's people wearing different skin

Judge and the jury, yeah!

This land is my land  
But that's where the music stops  
What about this land is your land  
It must have fell off and got lost  
They sing this land is my land  
Sing it loud and clear, well  
This land is your land  
As long as you're from here, all right

Judge and the Jury, oh yeah!

You can meet in secret twice a week  
And shave off all your hair  
You can dress up like it's trick or treat  
Get a big tattoo somewhere  
But if you think that makes you a mover  
If you think that makes you strong  
We got a jailhouse full of losers  
Who found out before too long

They ain't the Judge and the Jury

This land is my land  
But that's where the music stops  
What about this land is your land  
It must have fell off and got lost  
They sing  
This land is my land  
Sing it loud and clear well  
This land is your land  
As long as you're from here, all right

You better not let the sun go down on you in this town boy.  
You'd better make tracks and haul ass out of here!

The Judge and the Jury, oh yeah!

They say

This land is my land  
But that's where the music stops  
What about this land is your land  
It must have fell off and got lost  
They sing  
This land is my land  
Sing it loud and clear well  
This land is your land  
As long as you're from here, all right

The Judge and the Jury, oh yeah!  
The Judge and the Jury, oh yeah!

This land is my land  
This land is my land  
This land is my land  
This land is my land
