Live 4 U

Planetshakers

You knew me before I was born
You knew every mistake that I would make
You chose me to walk by your side
You even knew the path that I would take
Everyday I live for You
I want to get to know you more and more
The things I feel inside my heart
Can only come from knowing more of You

You have brought Your Love into my life
Now I live each day within Your light
Hopelessly I've fallen for You
Your love surrounds me everyday I live for You
You have brought Your freedom in my life
You're teaching me to shine a little light
In every situation You are guiding me coz
Everyday I live for You
