

Drive

Plankeye

When I feel afraid your comfort comes to me
And then I can be all that you want of me
These feelings I just can't hide
Pushing up from deep inside
Please take my life
Get into the car and let's just drive
I'm just a man, nothing more than what you see
When I'm hurt I cry
And when I'm cut I bleed
These feelings I just can't hide
Pushing up from deep inside
Please take my life
Get into the car and let's just drive
