

Let's Try Again Tomorrow

Plankeye

I told you I was sorry
We better kiss and make up
Why do we fight so much?
There's got to be some better way to convince you to let me stay
Remember when we used to fall down laughing?
I know I'm hung up
I do repent and I promise I won't ever do it again
Staged fight
Good night
Let's try again tomorrow
Please don't be angry with me
I told you I was sorry
This always happens when I start to feel like I am something
I'd like to think that we could find our way around this mess
Remember when we used to fall down laughing
Why can't we shut up?
It's gonna make us
Don't you wanna give it another shot?
Staged fight
Good night
Let's try again tomorrow
