I've been sitting in your car for hours
please mister driver don't tell my mother
i've been waiting here next to your fire
and it makes me feel a little higher

i can hear you boom boom heart

never stop the one boom boom
that's the way i love you now

hey mister driver won't you rock with me
in the morning won't you come with me
hey mister driver won't you rock with me
please mister driver try a little ha with me
