Play

Over the bridge...two blocks down

I'm glad, we kept a line through the things I've said and done  
and I know just what I'm like, when it comes to this..  
I can't say what I really want, I can't show how I really feel  
Never let somebody through the door (never let somebody through the door)  
But here I am now answering your call

Take a right by the telephone booth,  
two blocks down there's a park you can't miss it  
don't stop to enjoy the view cause I, I really miss ya

There's a bridge right ahead of you,  
just run for a kiss so meant to be, I don't care how  
Don't take your time just get here now..  
I'm the girl, on the bridge, two blocks down in the park you can't miss it

I won't say that I'm sorry, no (no)  
Cause that's just one side of me  
But you proved can handle that so well...now boy
