

# Hand In Hand

Play

When this world gets you down  
I'll always be around  
I will be there for you, I'll be there for you

And if you're feeling small  
I'll help you through it all  
I will be there for you, I'll be there for you

And if you need me you gotta let me know  
Cause you know you always got somewhere to go

Oh if you put your hand in my hand  
Put your trust in me and I won't let you down  
I will always be there for you  
Oh if you put your heart in my heart  
Take a walk with me and I will show you now  
We can leave the pain behind us hand in hand

If you just need a friend  
When the heartache starts again  
I will be there for you, I'll be there for you

I'll chase the hurt away  
My love is here to stay  
I'll be there for you, I'll be there for you

I know I'm not wrong about what we got  
The thing we feel between us babe is worth a lot

Oh if you put your hand in my hand  
Put your trust in me and I won't let you down  
I will always be there for you

Oh if you put your heart in my heart  
Take a walk with me and I will show you now  
We can leave the pain behind us hand in hand

You know I still want you baby (you know I still want you)  
You know I'll always need you baby (you know I'll always need you)  
You know I still want you baby (you know I still want you)

You know I'll always need you baby (you know I'll always need you)  
You know I still want you baby (you know I still want you)  
You know I'll always need you baby (you know I'll always need you)

Always be there  
Whooooooooah

I know I'm not wrong about what we got  
The thing we feel between us babe, is worth a lot

Put your hand in my hand  
Put your trust in me and I won't let you down  
I will always be there for you  
Oh if you put your heart in my heart

Take a walk with me and I will show you now  
We can leave the pain behind us hand in hand

Put your hand in my hand  
Put your trust in me and I wont let you down  
I will always be there for you

Oh if you put your heart in my heart  
Take a walk with me and I will show you now  
We can leave the pain behind us hand in hand..
