There's been 20 days and 20 nights of butterflies
I've been sittin' tight
Listenin' talk 'bout your life

You talk a mile a minute, 'bout your
brand new car, 'bout your big career
and how you're doing so far

Let's get to the point.
I hope im not out of line
Now I ain't really in a rush but
But in the interest of time...

Let's get to the love part,
let's get to the real thing
Let's have a little heart to heart
come on and get to the kiss
I want it right here like this

Let's get to the love part,
cause I'm ready for the real deal
Let's do a little face to face
am I makin' my case
I want it right here like this...

Let's get to the, oh oh oh oh and the..
do do do do some of that, na na na na

Another foreign movie and a starless night
Can we be alone..and maybe turn down the lights
Now it doesn't take a genius with a master plan
there's a restless moon, baby can't you understand

Let's get to the love part,
let's get to the real thing
Let's have a little heart to heart
come on and get to the kiss
I want it right here like this

Let's get to the love part,
cause I'm ready for the real deal
Let's do a little face to face
am I makin' my case
I want it right here like this...

Let's get to the, oh oh oh oh and the..
