

My Mind's Made Up

Player

I have always made a point of keeping my distance.
Never let nobody come near my quality time.
But I guess that every rule was meant to be broken.
'Cause I'm doing things with you
That only a man in love would do.

And now
I know
Exactly where I'm going.
I can feel
For the first time
Real emotion showing.

Call me a fool to be taking a chance,
But there's not a thing I can do.
I'm already gone,
My mind's made up about you.

I have always walked alone, I made it my business.
Never get too close for comfort, I make it my style. (Mmmm)
But I guess that every rule was meant to be broken.
'Cause I'm doing things with you
That only a man in love would do.

And now (and now)
I know (I know)
Exactly where I'm going.
I can feel (feel)
For the first time (for the first time)
Real emotion showing.

Call me a fool to be taking a chance,
But there's not a thing I can do.
I'm already gone,
My mind's made up about you.
About you, baby.

Look at me, look at me
Swept right off my feet.
I'm walking around with my head in the clouds
But I'm feeling so complete.

(And now) And now
(I know) I know
Exactly where I'm going.
(I can feel) I can feel
(For the first time) For the first time
Real emotion showing.

Call me a fool to be taking a chance,
There's not a thing I can do.
I'm already gone,
My mind's made up about you.
About you, baby.
About you.
About you, baby.
