

# Living In The Past

Plazma

Mem'ries take me back in time  
To the spring of my life  
When the whole world was mine  
And I was in the highlight

And there I first felt  
The merciless prick of the rose I had planted  
And then I first smelt  
The bittersweet perfume of heaven

And here I'm like a fish out of water  
Like a rose without rain  
Now I'm like a fish out of water  
I don't belong here today

I'm living in the past  
Living in my memories  
I'm living in the past  
Living in my memories

For the nineties I long  
Full of love and hope  
So incredible  
For the nineties I long  
So adventurous  
Unforgettable

And here I'm like a fish out of water  
Like a rose without rain  
Now I'm like a fish out of water  
I'm outcast from today

I'm living in the past  
Living in my memories  
I'm living in the past  
Living in my memories

For the nineties I long  
Full of love and hope  
So incredible

For the nineties I long  
So adventurous  
Unforgettable

And here I'm like a fish out of water
