

Ear Heart

Please the Trees

Does the constant buzz in my ears mean
Somebody is thinkin' of me?
Or is there something wrong
From listenin' to too much music all day and all night long?

Does the constant ache in my heart mean
It's too small for all the love it's holding?
Or is there just something wrong with it
From never stoppin'
Never missin' a beat?

It keeps on, it keeps on, it keeps on goin'
Precisely
As long, as long, as long, as it doesn't get broken
Or a knife doesn't get stuck right through it

Does the constant itch in my eyes mean
Something got stuck in?
Or is there something wrong
From seeing only, only, only, only what they want?
