

## New Heart

### Please the Trees

I want to hear your hair grow  
I want to get close to you  
Within the reach of your voice  
But not on a record or on telephone

Maybe it's just about the time to get back to my life  
Maybe it's just about the time to get me a new heart  
I guess I just sit down here and wait for some  
I'll wait for someone to die

Hoping it won't be anyone I know  
Hoping it won't be anyone I love  
Hoping it won't be neither man or a horse  
Hoping it won't be anyone at all  
And I'll forget you before my heart explodes  
And I'll forget you before my heart explodes.
