

## She Made Love To The Moon

Please the Trees

She made love to the moon  
She made love to me  
She gave away all she had  
She gave away her whole being

Now she is in everything  
Now she is everything  
Now she is in everything

She doesn't see the beauty here she used to see  
She feels nothing when she's supposed to feel  
She goes to places other people are afraid to go  
It's the coming back here  
She fears

Now she's in everything  
Now she's everything  
Now she's me  
She's you  
Now it's her  
It's her.
