

All I Need Is One Night

Pleasure P

Now deem the lights and relax yourself
Bring your body closer to me, time to show and tell
I've been waiting all night long
I told the DJ play this song, for you

And I don't really care what anybody else says about you (ohh n
o)
'cause you're the only one I want in my bed tonight (oh, I, oh,
I)
And I won't think of you any differently, girl tomorrow (tomorr
ow)
Make it all right, make it all right

Six shots at 5 o'clock
Let the foreplay, a threes a crowd
So how about the two of us makin' crazy love
All I need is one night, to make it all right, make it all righ

She was beautiful
Working all week in a cubical
Hard day, so tonight no Nuvo
She was due for, a trip to Pluto in my two door
Ahhh-ahhhh
Bartenda pour a round for her, tell her I'ma send her
Ice code Patron in the system, release your tension girl
'Cause I wanna make your night feel epic
Let it fall I'ma feel it up, tetras
Ordinary niggas just don't get it
Like Spanish, cause we gone vanish

At the six shots at 5 o'clock
Let the foreplay, a threes a crowd
So how about the two of us makin' crazy love
All I need is one night to make it all right, make it all right
