Pretty face with a ass so fat

Girl I wanna see you just wind real slow
I wanna see you, wanna see you drop it to the floor
Tell the DJ run the beat right back
Cus I ain't never seen it like that

Position, position, position, position
Prepare fi that love, that work me up fi ya body
Position, position, position, position
Do do it right, that's it gyal, we no see nobody boy
What yo body like, what yo body needs
Anywhere you go, you all fi say that lil girl sweet
Position, position, position, position
When you set him up a let me show so you're ready

(2x)

Girl we should leave
Leave this club
Go to my place
Make lots of love

Just close yo eyes and make the music move in you
Nah pretty pretty, this a rude boy grooving you
Me get you hotter than Jamaica in the summer
Hope your boyfriend knows that tonight he's losin you
Got the morning money, no time to spend
Off the party night, let's bring a couple friend
Get in the wind, you get that no problem
You give me all problem and I will solve them

Feels right
Us dancing all night long, girl
And it seems like
Right here's where you belong, girl
Baby when you wind on me
(Dirty wind on me)
There's no other place that I would rather be
'Cause it feels right
Us dancing all night long, girl
