

Make You Love Me

Pleasure P

My mama said this day would come, this world is crazy man, go to sleep a hero, wake up a villain. I guess you can't please everybody, only God can judge me, but I'm a make you love me.

Broke my heart when I found it was you spreading rumors on me. You was homie and my ace we was close damn near family. We shared everything in the world from cars to clothes even girls. but you stabbed me in the back left me dying on my knees.

First thing I wanted to do was run up on you put hands on you kick down your door run up in your crib and put hands on you (you, you).

But mama said let God deal with it she said baby that's a small thing (and you a giant) So I'm a keep grinding keep getting this money do it so big that you gotta give it to me (yeah) I'm a make you love me so open up your arms for a player when you see me with a bad chick on my hip riding through the city (yeah) I'm a make you love me (I'm a make you love me.)

This big chain gunna get bigger (I'm a make you love me)
All you gunna hear is that that's nigga (I'm a make you love me)
) Hate all you want I just figure that I'm a make you love me (yeha yeah yeah yeah)

And then you hurt my heart when you throw dirt on my name.
Guess I was winning way too much trying to sabotage me.
We shared everything in the world from cars to clothes even girls. So you stabbed in the back cause you couldn't stop my fame.
