

## Under

## Pleasure P

Callin' my river to let her know  
I'm gonna be on my way  
Missin' how the river flow even though  
It's only been a couple of days

Cause it raining ain't complaining but...  
You got that water made for drinking up  
Baby if I drown tonight its all worth it for you  
I don't need no rescue

Imma hold my breath until you feel it in chest  
I ain't coming up until you screaming "I give up"  
You be making waves, my ship's in a sail  
I got what it takes to swim up in all day

You be making waves, my ship's here to stay  
I got what it takes to swim up in it all day  
I want you to shake it, later tell me it was great  
When I go under, under

Girl relax, captain can handle that  
I'm gonna take this cruise real slow  
Heading to paradise, close your eyes  
All you gotta do is let it go

The way your body flow, it's a private show  
And I can't stop until it's spilling over  
It's a sight to see you and it's calling me  
Telling me your body's getting closer

I'm gonna hold my breath until you feel it in your chest  
When I go under, under  
I ain't coming up until you screaming knock it off  
When I go under, under

You be making waves, my ship's here to stay  
I got what it takes to swim up in it all day  
I want you to shake it, later tell me it was great  
When I go under, under

I'm jumping in, no lifesaver  
Don't know when I'm coming up  
Deep sea diving in your treasure  
I'm giving you all this pleasure

Ooh girl, I'm so into you  
So deep I don't know what to do  
Just let the water flow  
Till the tidal wave washes us ashore

I'm gonna hold my breath until you feel it in your chest  
When I go under, under  
I ain't coming up until you screaming knock it off  
When I go under, under

You be making waves, my ship's here to stay  
I got what it takes to swim up in it all day

I want you to shake it, later tell me it was great  
When I go under, under

Under, under  
Under, under
