

Spend the Night

Plies

I feel like havin' some company tonight
So, I just need to find out who wanna come spend the night wit' me tonight
It's a couple of things over here at my crib that I wanna show you
So, all I wanna know, baby

Baby, wanna spend the night?
Get a crib that's so tight
Got a view that's just right
Got neighbors that's so nice
Baby, wanna spend the night?
You can help me count stacks
Got dogs that don't bite
A chef, cook what you like
Baby, wanna spend the night?

Wanna come and chill
Take a tour of my crib
Show you what I'm rappin' is real
Good is how I live
Goon Palace, my dear
Whisper somethin' in yo ear
Hungry, menu right here
All liquor, no beer
Got questions? Ask, my dear
What is that? Oh, that's a deer
Over there's a chandelier
Oh, this 'bout 5 karats in my ear

Baby, wanna spend the night?
Get a crib that's so tight
Got a view that's just right
Got neighbors that's so nice
Baby, wanna spend the night?
You can help me count stacks
Got dogs that don't bite
A chef, cook what you like
Baby, wanna spend the night?

Oh, sex? We'll get to that later
Who's that? Oh, that's my waiter
She does laundry, she cleans and she caters
She works for me 'cause I pay her
She'll take care of all of yo favors
That's cherry wood on them tables
Don't wear suits that's tailored
Too gutta, it ain't in my nature
But I do want shit that cost paper
Look back there, them acres
That Bentley, I bought it for them haters
Got satellite, no cable
Wanna take a look at my gators?
Oh, wave at 'em, them my neighbors
They cool, baby, they got paper
They think I play for them Pacers

Baby, wanna spend the night?
Get a crib that's so tight

Got a view that's just right
Got neighbors that's so nice
Baby, wanna spend the night?
You can help me count stacks
Got dogs that don't bite
A chef, cook what you like
Baby, wanna spend the night?

Pick where you wanna have sex
Anywhere in my house, be my guest
Got six rooms you can pick
We can go in the office on my desk
Wanna do it in the shower, then bet
Got maids to clean up our mess
What I'm bout to give you is the best
I'm here to fix yo stress
Just let me know when you get wet
Take your time gettin' undressed
While I take the diamonds off my neck
'Cause I'm finna get in yo chest
'Bouta put my eggs in yo nest
On 'gnac, I needs no rest
Fuck you 'til you out of breath
Wanna spend the night again? Yes!

Baby, wanna spend the night?
Get a crib that's so tight
Got a view that's just right
Got neighbors that's so nice
Baby, wanna spend the night?
You can help me count stacks
Got dogs that don't bite
A chef, cook what you like
Baby, wanna spend the night?

Baby, if you spend the night you will not wanna go home
I will literally have to make you go home
You ever seen the commercial
Where they jump down there and grab his ankle
And he gotta drag 'em through the halls
That gonna be you
I promise you, I'll let you spend the night again baby
Baby, wanna spend the night?
